| <b>1</b><br><b>Sign up</b><br>Create your free account. | <b>2</b><br><b>Design</b><br>Pick a design and make it yours — the full template library from Solo. | <b>3</b><br><b>Share</b><br>Via QR, link, NFC or email — Wallet from Solo. |
|---------------------------------------------------------|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|

All prices incl. VAT. Every paid subscription starts with a 14-day free trial — once per account. Cancel anytime during the trial: no cost, no questions asked. The Free plan does not include wallet passes — wallet starts with Solo. **Webagentur Hochmeir e.U. · Moorweg 7, 4845 Rutzenmoos, Österreich · hello@falconcard.net · UID ATU78855106**

## FALCONCARD FOR ENTERPRISE

# Custom solutions for large teams

SSO, API, custom integrations and dedicated support.

**WHO ENTERPRISE IS FOR**

For organisations that roll out cards centrally, provision identities from their own directory and need the brand enforced rather than explained to every team.

**WHEN ENTERPRISE INSTEAD OF TEAMS**

As soon as you need more than 50 cards or more than 5 members — or as soon as SSO, SCIM or API access is required.

**WHY FALCONCARD ENTERPRISE?**

- ✓ Card and lead quotas by agreement
- ✓ Full API access
- ✓ Live status monitor with 90-day history and 30-day uptime
- ✓ Custom pricing
- ✓ SSO integration via SAML/OIDC
- ✓ CRM integration (Salesforce, HubSpot)
- ✓ Dedicated account manager
- ✓ Freely configurable: features and limits to fit

**SSO, SCIM AND API FOR DIGITAL BUSINESS CARDS****Single Sign-On (SSO)**

Integrate FalconCard with your existing identity management — SAML 2.0 and OIDC supported.

**Custom integrations**

Connect FalconCard with Salesforce, HubSpot and further enterprise tools on request.

**Live status monitor**

Real-time availability for every component — not a static SLA claim. Web, API, DB and Wallet publicly visible.

**Team activity log**

Governance at a glance: who changed which card and when — logged without gaps for compliance and audits.

**Member CSV import**

Onboard entire teams in one step: import and invite members conveniently via a CSV file.

**REST API**

Full API access for automated card creation, updates and integrations.

**Dedicated support**

Personal account manager and priority support.

**Quotas by agreement**

Cards, team members and features set individually by agreement — from large teams up to unlimited.

**Brand enforcement & compliance report**

Enforce your brand per area, see your team's brand quota and apply the brand to all cards with one click.

**SCIM Provisioning**

Employees are created, updated and deactivated on offboarding automatically from Okta, Microsoft Entra ID or JumpCloud — via SCIM 2.0, with no manual account upkeep.

**Enterprise — On request**

We usually reply within 24 hours on business days. Or email us directly at [hello@falconcard.net](mailto:hello@falconcard.net)
